

Billing Information

Your bi-monthly bill includes charges for water and/or sewer. The property owner is legally responsible for all charges, but we will bill a tenant at your request. Bills are processed the first of each month for service up until the middle of the prior month. Bills are always due on the last day of the month they are billed. Delinquent accounts receive a 10% penalty.

Payments

In person: 280 Madison Ave N
Drop box: Orange box on east end of building
On line: <https://cityofbi.afts.com>
Pay by Phone: 206-521-5127

Returned Bank Payments

If a payment is returned to us unpaid, repayment will be required immediately in the form of cash or cashier's check along with a \$20 NSF fee.

Low Income Senior Discount:

To qualify for a Senior discount, you must occupy the home and be considered, head of household. You must be 61 or older and have a verifiable annual income including spouse or co-tenant of less than \$40,000. Qualified applicants will receive a 50% discount. You can download the form off our web site or call to request one at 206-780-8603.

Summer Sewer Averaging (SSA)

During the warm summer months, all of your water consumption is likely not going down the sewer, because of this we give you a discount on your sewer volume rate. Starting June 15th through September 15th, you will be billed sewer volume charges based on your average winter use. (Dec through May)

SFR= Single Family House

Water Conservation:

We all have an obligation to be good stewards of our water resources. Water conservation not only helps save water, it also saves you money. We can all do our share to use our water wisely and ensure an adequate water supply for ourselves and future generations.

Easy ways to conserve:

- ✓ Check faucets and pipes for leaks
- ✓ Turn off water while brushing your teeth.
- ✓ Limit your time in the shower
- ✓ Install low volume heads
- ✓ Only run dishwasher & washing machine when full
- ✓ Don't let the tap run when doing dishes by hand
- ✓ When washing a car, use a bucket with soap, water and a hose with a nozzle that shuts off
- ✓ In hot summers measure your watering and try to keep it to an inch a week (use a tuna can to measure)
- ✓ Water in the morning or evening to reduce evaporation.
- ✓ Clean sidewalks with a broom, not a hose.
- ✓ Mulch beds to keep moisture in.
- ✓ Consider letting your lawn go dormant in the summer.
- ✓ Insulate your water pipes

About the city's Water:

The City's water supply is provided by eleven wells located at four different well sites. At each well site the water is treated with chlorine and fluoride before being pumped into the distribution system to supply to our customers and fill storage reservoirs. The wells draw from 3 separate Aquifers giving the City flexibility to meet future demands.

Do you have an Irrigation System?

If you have a sprinkler system, you are required to have a backflow preventer installed and tested annually. Please talk to our Public Works Department at 206-842-1212.

Rain Sensors

As a City of Bainbridge Island water customer with an irrigation system, you are eligible for a free rain sensor. A rain sensor is a device that turns off an automatic irrigation system when it rains. Therefore, you are not watering your property when rain is doing it for you. The sensor can reduce your water bill and save you money while conserving drinking water. Come down to City Hall and pick one up.
