

Climate Smart Bainbridge Youth Challenge!

Calling All Kids!

We are looking for students to work together to create a more sustainable, brighter future!

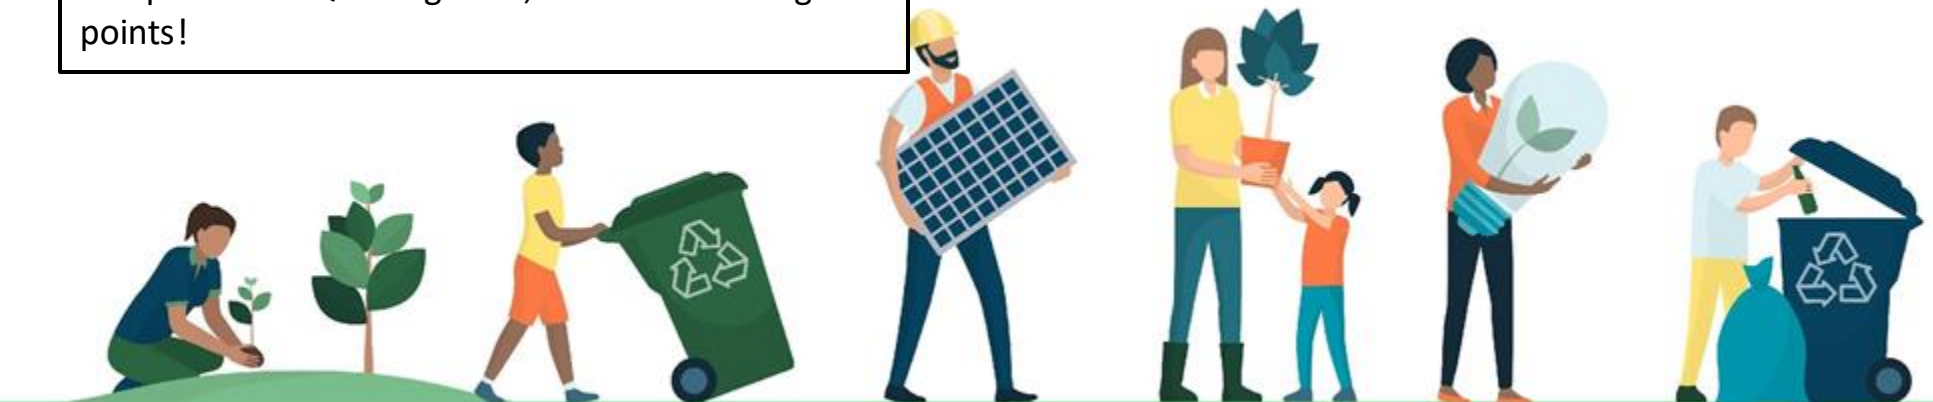

The City of Bainbridge Island is encouraging students and their families to learn about sustainable and climate friendly actions to take at home to make an impact on climate change! There are many actions that are easy to take that make a big impact. We will use the Climate Smart Challenge platform to:

1. Discover your household impact on climate change today
2. Explore and choose actions to take to protect our environment
3. Help your community take action with you
4. Track your progress, share with members of your team, and celebrate!

How to Participate

- Create an account at www.ClimateSmartBainbridge.org
- Participate in the weekly challenges!
- Celebrate your success and plan for the future!

Teachers! [See this packet](#) for instructions, support for the challenge, and fun meeting agendas complete with Quizizz games, videos and talking points!

Weekly Challenges

Week 1: Discover your Impact! Create your Climate Smart account with the link provided by your teacher. Ask your family to help you complete your household Energy Profile. Discover your household impact and starting level and record the results. Complete the "Learn About Solutions" action.

Week 2: Transportation Heroes! Explore the Transportation Category and choose at least 1-2 actions you would like to take and add them to your list. Mark any actions your family has already completed as "Previously Completed". Complete 1 or more new actions and record it (mark done on the website and record here in your log).

Week 3: Waste Less, Eat Smart! Explore the Food & Waste Category and choose at least 1-2 actions you would like to take and add them to your list. Mark any actions your family has already completed as "Previously Completed". Complete 1 or more new actions and record it.

Week 4: Home Energy Champions! Explore the Energy Smart Action Category + the Green Electricity Action and choose at least 1-2 actions you would like to take and add them to your list. Mark any actions your family has already completed as "Previously Completed". Complete 1 or more new actions and record it.

Week 5: Community & Learning! Get your community involved and learn more! Invite your neighbors to join, get your family involved, or encourage the government to do more. Celebrate with your classmates how much you all have accomplished!
